

## MONTLY INTRODUCTION

### March: Perceptions, Attitudes & Experience

March topics challenge students to re-evaluate the filter through which they judge situations. Activities through this month provoke self-examination of their learning and judging styles. Students will learn that a changed perspective can produce a hopeful look on challenges and the future before them.

- Vicarious Learning vs. Actual Experience
- Personality Filters
- Diversity
- Ideals
- Appearances
- Virtues
- Motivations
- Hopes

Integrated Skills: All students will develop and use personal and interpersonal skills to support a healthy, active lifestyle.

**Social and Emotional Health  
Relationships**
